# Library collections, session objectives

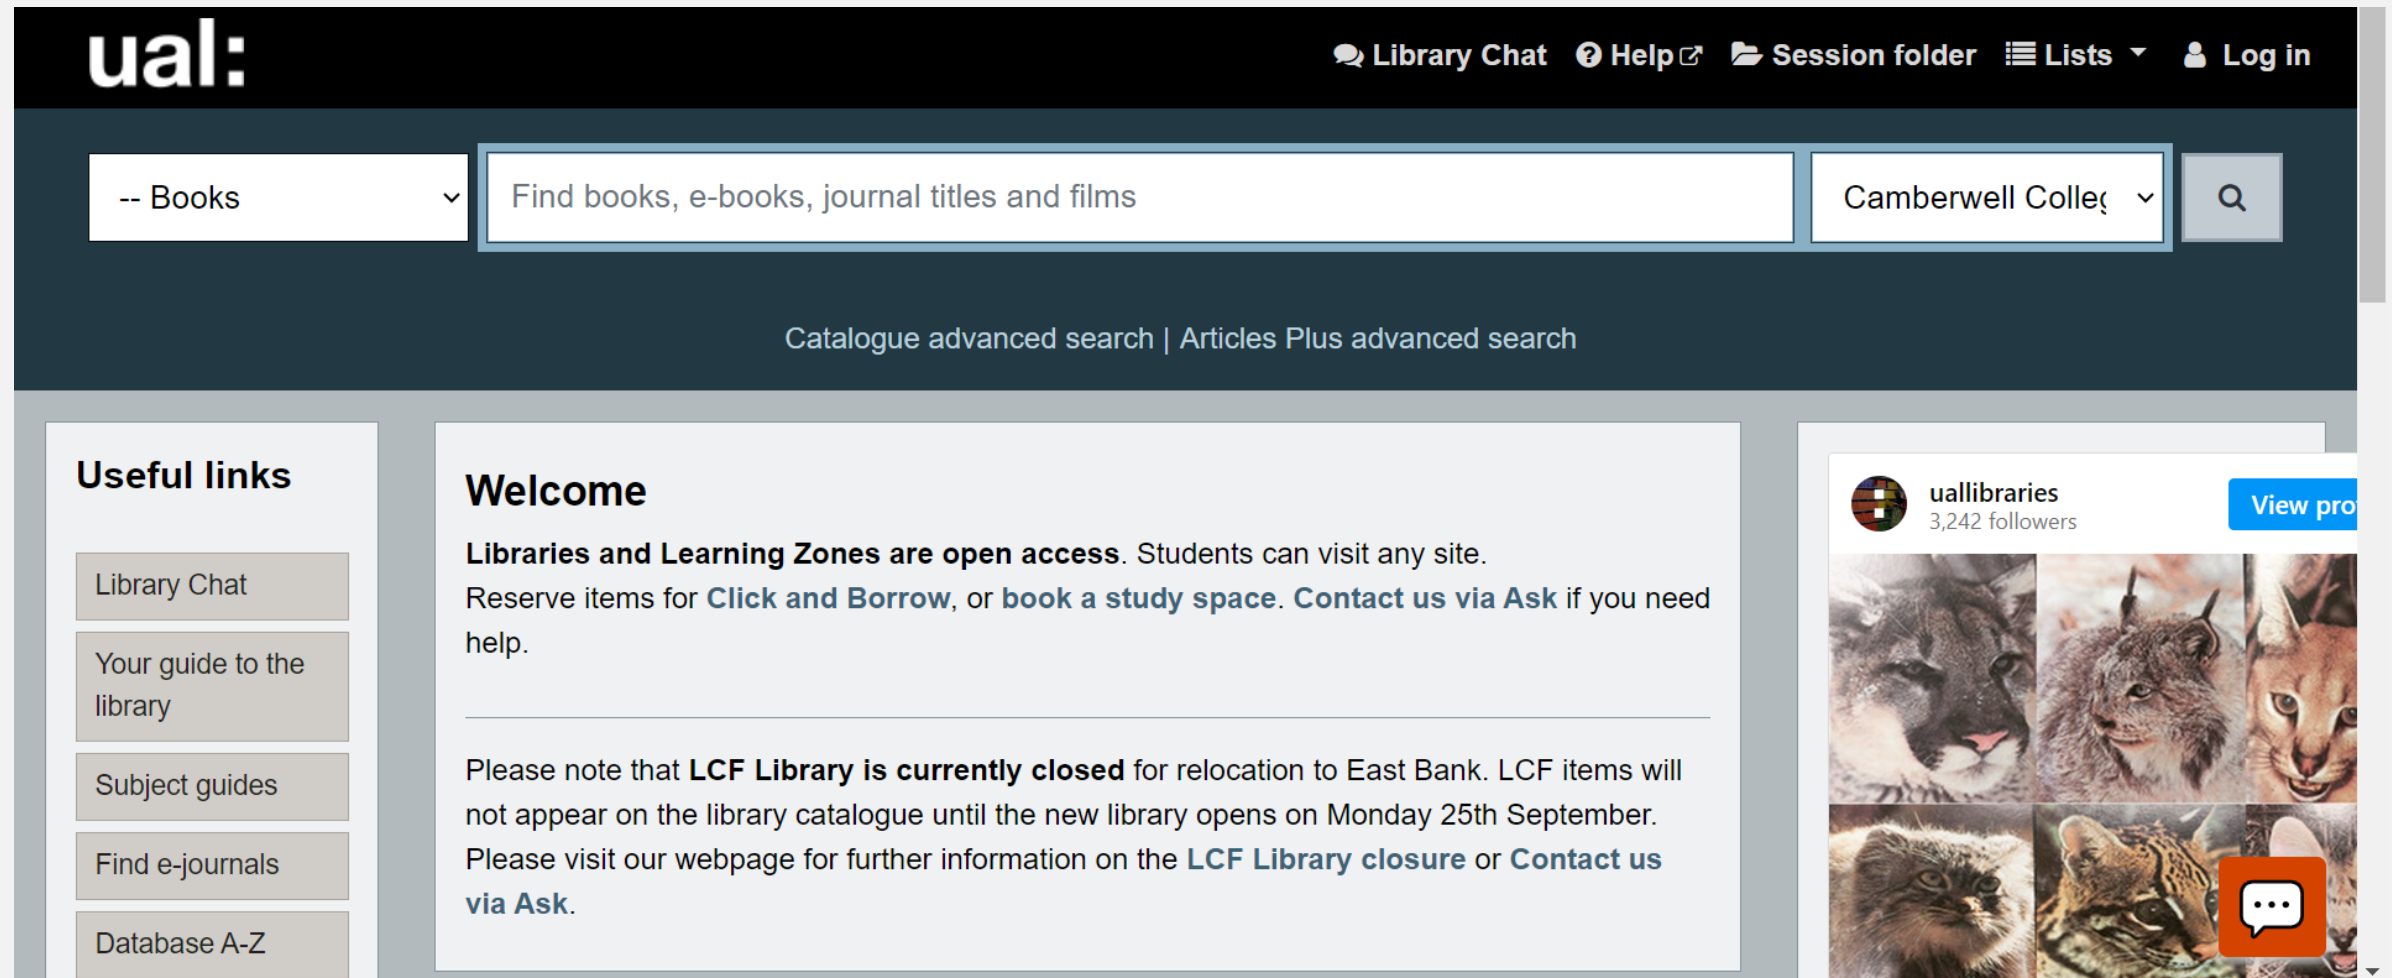

Libraries are about more than books.

We also offer access to online resources, tools, objects and images as well as being available to help with skills to make the most of these.

The objective of this session is to increase your confidence in using library access routes to research 'more than books' .

# Using the catalogue to search: demonstration

The screenshot shows the UAL library catalogue homepage. At the top is a dark navigation bar with the 'ual:' logo on the left and links for 'Library Chat', 'Help', 'Session folder', 'Lists', and 'Log in' on the right. Below this is a search bar with a dropdown menu set to '-- Books', a text input field containing 'Find books, e-books, journal titles and films', a dropdown menu set to 'Camberwell College', and a search button. Below the search bar is a link to 'Catalogue advanced search | Articles Plus advanced search'. On the left side, there is a 'Useful links' section with buttons for 'Library Chat', 'Your guide to the library', 'Subject guides', 'Find e-journals', and 'Database A-Z'. The main content area has a 'Welcome' section with text about library access and a notice about the LCF Library closure. On the right, there is a social media widget for 'uallibraries' with 3,242 followers and a grid of cat images.

# Search and collate :

## Add an image and a book link on the padlet

- Objects and images of objects
- Books about the object, design or materials, and / or associated themes or creators
- Streaming media or DVDs about the object's history, making or adaption
- Art and artefacts created from these objects
- Your own drawings, words, reactions
- Absences and what they mean
